This questionnaire is for the following people/officials: Weighbridge Operators, Truck drivers, Police Officers, Anti-Corruption Officers, former Weighbridge personnel, Technical Assistants from NORAD, IMF, WORLD BANK, Road Development Agency (RDA) Senior Officials, buses passengers, Transporters traditional leaders and academicians in the languages department at the University of Zambia, as the way to obtain information on *Nichekelelo* at the Weighbridges. It will also serve as an interview guide for staff in the transport industry with information collected as a background to the research problem.

#### **Goal of questionnaire:**

The aim of the research is to examine the reasons for the persistence of the phenomenon of *Nichekelelo* at the Weighbridge in Zambia. In order to achieve this aim, the study will be guided by the following questions below: Is the persistence in the phenomenon of *Nichekelelo* in Zambia facilitated by many factors other than power relations between actors? Does the persistence of *Nichekelelo* phenomenon at the WB lie in what underpins it? Can the theoretical framing tools of Pierre Bourdieu (practice and field) and Michael Foucault (power relations) provide a guiding light in explain the persistence of *Nichekelelo* at the WB in Zambia? The focus is on *Nichekelelo* which means support in *Chewa* implying that it manifest in many ways such as through the gift exchange and is embodied and passed on from one generation to another. Therefore, does this explain the reasons why actors who engage in the practice see it as less corruption and hence its persistence in Zambia? The research objectives are as follows: To establish the reasons for the persistence of *Nichekelelo* in Zambia especially at the WB's despite several intervention strategies taken by the government to reduce it. To establish whether the persistence of *Nichekelelo* in Zambia,

especially at the WB takes place in the context of power relations by those who engage in it. To investigate the gap created in revenue and whether such affects its persistence in Zambia. The questionnaire contains a number question on the forms of Corruption (*Nichekeleko*): From the National legal policy perspective and in the *Chewa* culture perspective. There is no right or wrong answers. Please answer each question to the best of your ability by writing the response that best reflects your opinion.
